

Krysi pluly oceánem dvě ledové kry.

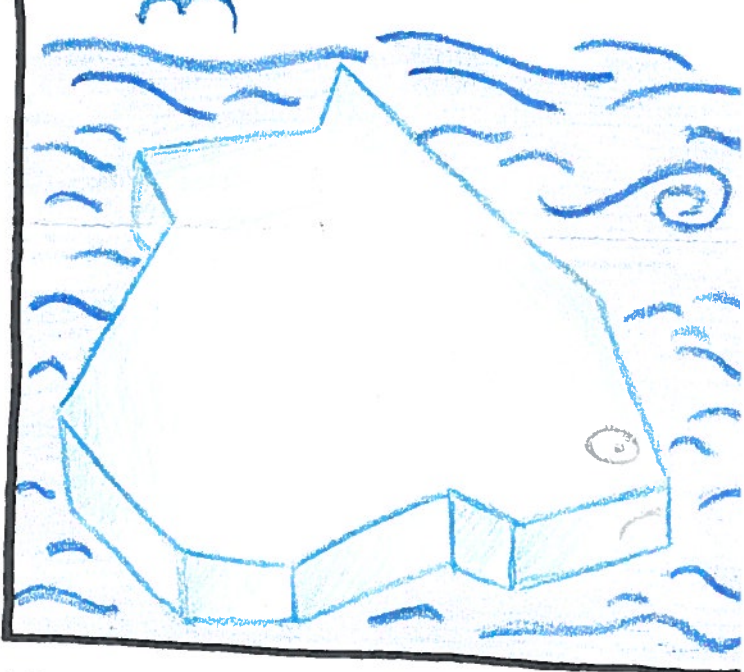

Ty dvě kry se do sebe zamilovaly.

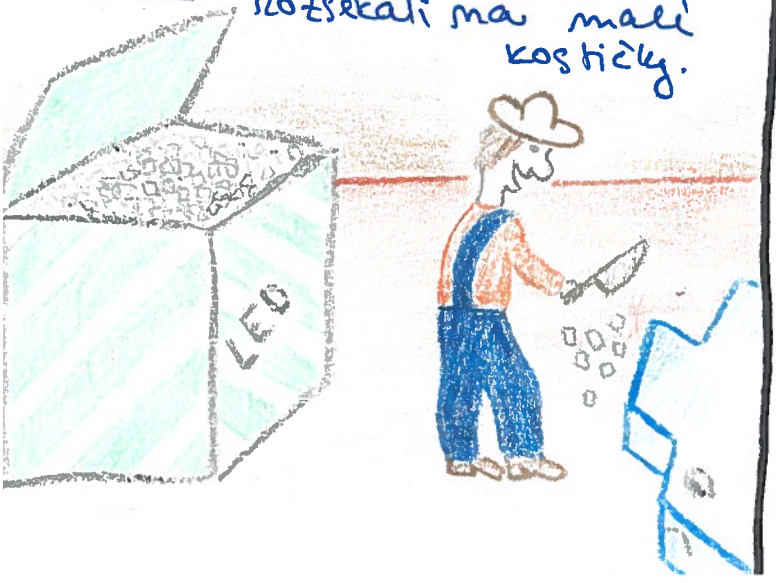

Ale jednoho dne přijela loď a jednu kry odvezla.

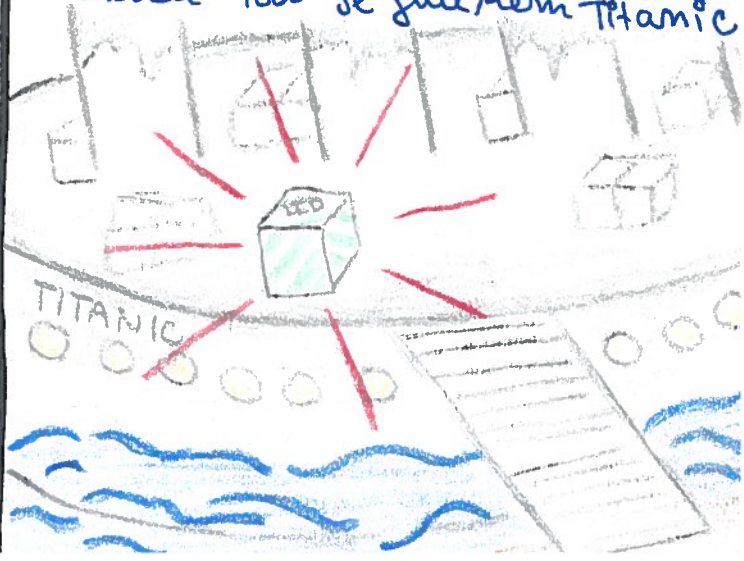

Druhá steskem po první, bloudila sama oceánem

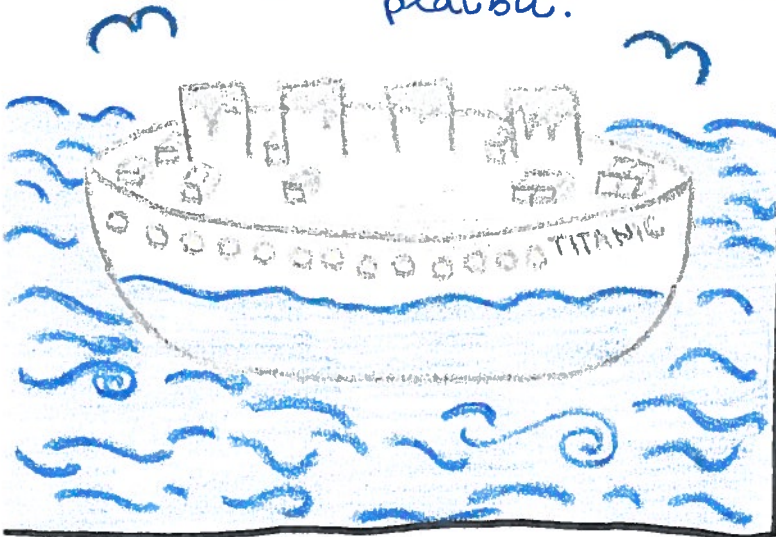

Mezitím Druhou kry v přístavu rozsekali na malé kostičky.

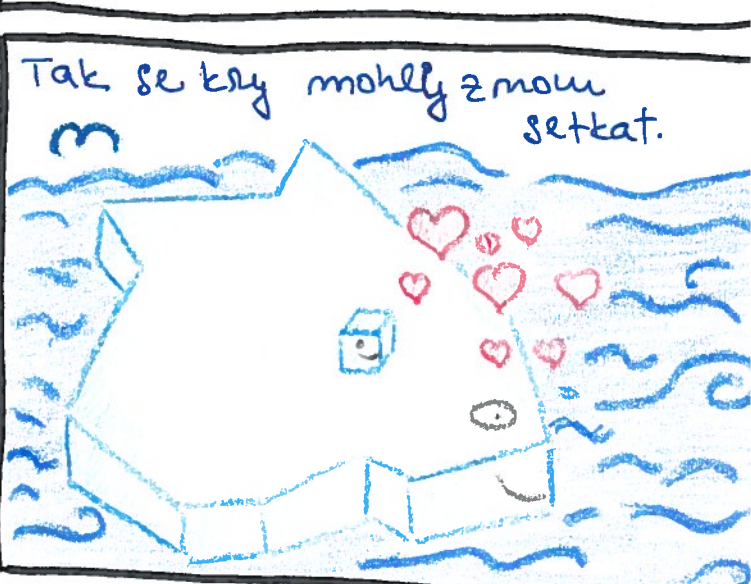

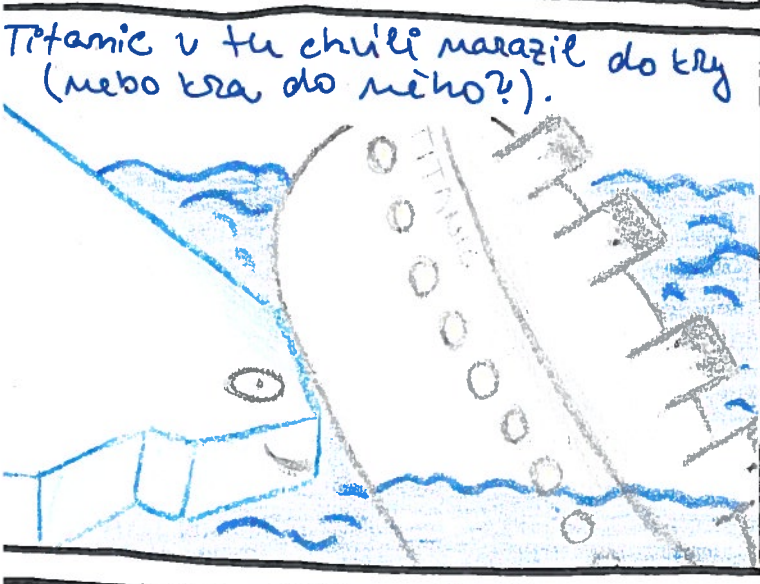

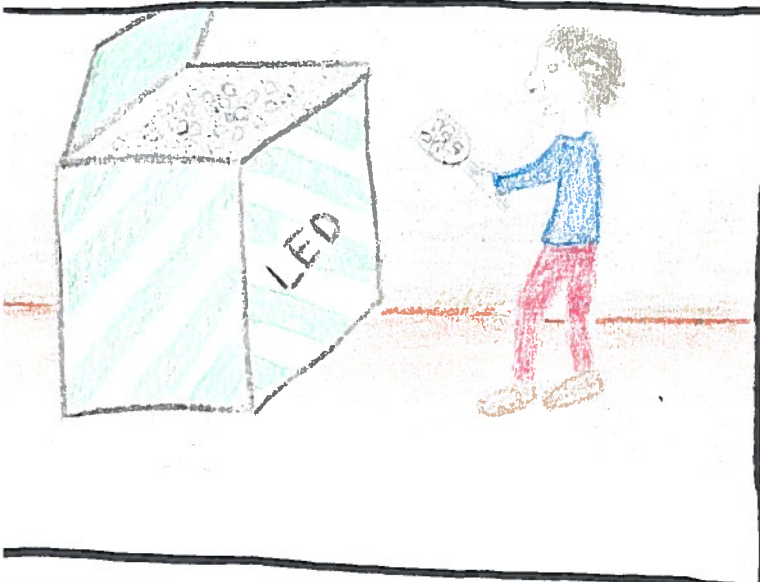

Tyto kostky ledu malovali na novou loď se jménem Titanic

Titanic vyrazil/ ma dlouhou plavbu.

Popár dnech plavby

Z toho si můžeme vzít ponaučení, že láska dokáže i nemožné.
